USMX, INC. ANNOUNCES THAT IT IS A RECIPIENT OF THE NEVADA EXCELLENCE IN MINING RECLAMATION AWARD FOR 1992

DENVER, COLORADO - USMX, INC. announced today that it is a recipient of the **1992 Nevada Excellence in Mining Reclamation Award**. The award, which was presented at the Nevada Mining Association Annual Meeting recently held at Lake Tahoe, Nevada, was jointly sponsored by the State of Nevada, U.S. Bureau of Land Management and U.S.D.A. Forest Service.

This award, given **"in recognition of outstanding achievement in innovative design, superior mine planning and commitment to reclamation from project commencement to closure"**, is particularly gratifying because it not only recognizes the significant amount of reclamation work accomplished at our Green Springs Mine, but also recent environmental efforts in the Alligator Ridge area at the Casino/Winrock and Yankee Mines.

USMX is proud of its leadership role in mine reclamation in the State of Nevada and the significant accomplishments made toward that end by all its Nevada employees.

USMX is in the business of exploring, acquiring, developing and operating mineral properties in North America. **USMX** holds a portfolio of gold properties which it explores from its offices in Denver, Reno, Ely and Tucson. The Company's stock is listed on the NASDAQ National Market System under the symbol **"USMX"**.
